## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 26-45 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in a combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 26 and 36, which include, a method of improving the visual perception ability of a person with respect to a particular eye condition of at least one eye having treatment phase training glasses with reduce refraction for the respective eye and display to the person another plurality of images in at least one treatment session while training glasses are applied to at least one eye of the person until perception ability of the person has been improved (claim 26); and an evaluation phase, before training glasses have been applied to the person, the processor controls display device to display to the person a plurality of images selected to test the visual perception ability of the person with respect to at least one visual defect, and utilizes responses inputted by the person via input device to select another plurality of images designed to improve the visual perception ability of the person with respect to a detected visual defect; and in treatment phase, after training glasses have been applied to the person, the processor controls display device to display to the person another plurality of images to thereby improve the visual perception ability of the

person with respect to detected visual defect (claim 36)( note: claim 36 allowed previous office action 1/30/2008).

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### **EXAMINER COMMENT**

#### ***Drawings***

4. Figures 1-4 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
